

EFFECTIVE

July 1, 2022.

Subject(s)**ASM 170, Case Closure**

Removed note: "If the same individual caregiver will be providing services the ASW will need to request a provider enrollment criminal history rescreen for payments to begin."

Reason: Provider Enrollment rescreens providers every 30 days, therefore provider rescreens will no longer be required when an individual caregiver chooses to work with an additional client.

Added language that the ASW must update any new assessment information as part of documentation needed in MiAIMS prior to case closure.

Reason: Clarification of policy.
